

# BTEC National Level 3 Construction & the Built Environment

**Level:** Level 3 (GCE Equivalent)

**Exam Board:** Edexcel/Pearson

## Course Requirements

You need to have achieved a grade C or above in GCSE English Language and Mathematics. A grade C in Science would be desirable but not essential.

---

## Course Content and Assessment

### Subsidiary Diploma

This course will run over 2 years. Candidates will have to complete the whole duration in order to complete the qualification requirements outlined below.

To achieve this qualification, candidates must complete six units:

Unit 1 – Health, safety and welfare in the construction industry

Unit 2 – Sustainable construction

Unit 4 – Science and materials in the construction and built environment

Unit 5 – Construction technology and design in construction and civil engineering

Unit 6 – Building technology in construction

Unit 10 – Surveying in construction and civil engineering

### ASSESSMENT

All units are centre-assessed and externally moderated by Edexcel/Pearson. There are no timetabled exams for this qualification; candidates may complete units at a time that suits the

centre. The full award and units from this qualification are graded as Pass, Merit, Distinction and Distinction\*.

---

## Progression

This qualification provides progression opportunities to higher education, degree and professional development programmes within the same or related areas of study, within universities and other institutions.

---
